PURPLE REIGN

Purple can be viewed as an indicator that you are eating foods with a powerful array of health benefits. Fruits and vegetables of this color are rich in anthocyanins, which give foods with their unique color and may benefit brain health, help lower inflammation, and fight cancer and heart disease. In addition to anthocyanins, purple produce offers several other key vitamins and nutrients. Purple powerhouses you should add to your diet include blackberries, boysenberries, cherries, and purple cabbages.
